Mobile: +91-8708775970

Skills

- **Languages**: C++, JavaScript, C, Python, Java, SQL
- **Frameworks**: React, Tailwind CSS
- **Tools/Platforms**: Git, GitHub/GitLab, VS Code, MS Excel, Power Bi, Google Colab
- **Data Analytics**: Jupyter Notebook, Power BI, Excel, NumPy, Pandas, Seaborn, Machine Learning (Scikit-learn)
- **Soft Skills**: Time Management, Problem-Solving, Teamwork

Projects

- **Car Sales Analysis Dashboard | Power Bi | Dashboard** *January 2026*
  - Designed and developed an interactive Power Bi dashboard to analyze car sales performance across revenue, units sold, brand performance, and time-based trends.
  - Visualized top-performing brands and models, along with monthly and yearly sales trends for business insights.
  - Implemented key KPIs and interactive slicers to enable quick decision-making and deep-dive analysis.
  - Improved skills in data modeling, DAX, and data visualization, converting raw data into actionable business insights.
  - **Tech:** Power BI, DAX, Data Modeling, Data Visualization

- **Real-Time Process Monitoring Tool (Task Manager) | GitHub** *May 2025*
  - Introduced a web-based monitoring solution that displays system processes in real time, providing visibility into CPU usage, memory consumption, and active task execution.
  - Implemented process management capabilities allow users to view detailed process information, track resource utilization, and manage running tasks through an intuitive dashboard.
  - Designed a clean, user-centric interface to simplify interaction with complex system-level data, improving usability and readability.
  - **Tech**: Python (Flask), HTML, CSS, JavaScript.

- **Startup Vision AI Powered Startup Idea Validator | Chatbot | GitHub** *April 2025*
  - Operated an intelligent conversational assistant that evaluates startup ideas by analyzing market trends, competition signals, and practical feasibility to support informed decision-making.
  - Engineered a responsive, performance-optimized interface with modern front-end technologies, ensuring smooth interaction across devices and screen sizes.
  - Built a structured assessment workflow that generates detailed feedback on viability, risks, scalability, and potential challenges faced by early-stage ventures.
  - Used AI insights to deliver clear recommendations, helping users refine concepts before execution.
  - **Tech:** React, TypeScript, Tailwind CSS, OpenAI API.

Training

Lovely Professional University: Summer Training Program – Data Structures & Algorithms (C++) *June 2025*

- Completed an intensive **live 6-week training program** focused on **Data Structures and Algorithms.**
- Enhanced **problem-solving skills** and **algorithmic thinking** through hands-on practice.

Certificates

- Cloud Computing by IIT Kharagpur and NPTEL online certification. | *NPTEL* *August 2025*
- ChatGPT Made Easy: AI Essentials for Beginners | *Udemy* *August 2025*
- Mastering in C: Basic to Beyond by CSE Pathshala. | *Certificate* *March 2024*

Achievements

- **Technical Achievements:** *February 2025*
  Successfully solved 50+ problems on LeetCode, strengthening problem-solving and coding skills.
- **Qualified for the final round of hackathon:** *March 2024*
  Finalist at "HackWithVertos" 1.0 (24-Hour Hackathon), qualifying through multiple competitive rounds.

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.89*** *Since August 2023*
- **RPS SR. SEC. School** Haryana, India
  Intermediate; ***Percentage: 90*** *April 2022 - March 2023*
- **S.E.D SR. SEC. School** Haryana, India
  Matriculation; ***Percentage: 80*** *April 2020 - March 2021*
